

# Installation Guide

## Steering wheel control Interface

### Honda Civic Hatchback 2006>

CT23HD11L

CT23HD11L Facia Panel  
(Requires CA-R-HO.001AE interface and aerial adapter)

Honda Civic 2006> Dashboard

- 1 Remove original head unit. Lever out plastic cover below the display

- 2 Unscrew the three screws, which holds in the OEM head unit trim.

- 3 Lever out the original head unit from the sides. Disconnect all connectors. Turn the head unit over and unclip airvents. Clip airvents into new facia plate.

- 4 Unscrew two screws holding the hazard warning switch. Remove the switch and screw into the same position on the new facia plate

- 5 Clip in new facia plate. Secure the facia plate using the three screws from the top of the original facia trim. (See step 2). Insert and secure the supplied cage.
